About me

Greetings! I am a Software Engineer currently staying in KL, Malaysia, looking to get some working experience in the vast world. Aspiring to become a skilled member of the programming community, either in blockchain or app development.

Experience

Treasurer

Jul 2023 - Current

Air Rovers Crew A

Active in the Scouting movement since 2017, currently serving as the Treasurer for my high school's Rover Crew. My responsibilities are mainly accounting and event planning.

R&D, Bootcamp,

Dec 2022 - Aug 2024

Community Member

APUBCC

Part of the Research Department in charge of handling all things technical such as giving talks, holding workshops, and writing Solidity scripts. Moved on to other departments where needed.

Front Desk

Oct 2023 - Aug 2024

ASUS Service Centre @ Low Yat

Landed a job assisting customers with technical issues and also helped to diagnose and fix simple hardware and software problems.

Systems Developer

Aug 2024 - Current

CHIYUU Co., Ltd.

Interning at an overseas company which specializes in providing support for legacy systems, and also provides consulting for companies which want to upgrade their systems. This role requires me to be proficient in CakePHP.
