Languages

■ English 

■ Bahasa Melayu 

Introduction

Greetings! I am a fresh high school grad from Kuala Lumpur, Malaysia looking to get some working experience in the vast, vast world. Aspiring to become a skilled and vital member of the programming community, either in blockchain or app development.

Education

- UPSR (5As 1B)
- PT3 (6As 2B)
- SPM Trials (6As 2Bs 2Cs)

Experience

■ Vice President of School's IT Brigade

Served for a large portion of my high school life with the sole purpose of facilitating the growth and learning of students and teachers alike in anything IT related. Host of several talks including a Flutter and a Photoshop course.

■ Launched ITB Token and airdropped to participants

Airdropped each probate and member of the 2021 batch of SMK (L) Methodist, Jalan Hang Jebat's IT Brigadiers 1 MATIC, 1 ITB Token and a specially designed NFT listed on OpenSea as a souvenir.

■ Hobbyist writer on cryptocurrency related matters

Written several articles on Medium under the publication called The Millennial Hodl. Planning to write even more on different platforms.

■ Co-founder of Gas Fi

Worked on a Flutter based, Ethereum chain gas tracker app which is currently published in Google Playstore.
