About Me

Software Engineer with a keen passion for technology. Coding since high school has converted into a curiosity for all-things tech, ranging from hardware systems to emerging blockchain and AI technology. Enjoy seeking out like-minded people online and offline to learn something new everyday. My goal is to continuosly develop my technical expertise while becoming a valued contributor to an innovative engineering team in today's tech-driven world.

Experience

Customer Support Officer   MAR 2025 - Current

GO Markets Sdn. Bhd.

Picked up a CS role in the Finance Industry as my first exposure in the corporate world so that I would be better equipped in any future endeavours. Gained priceless interpersonal skills.

Mobile App Engineer   MAR 2025 - OCT 2025

CHIYUU Co., Ltd.

Transitioned to a Mobile Engineer role, working on a new project which required me to pickup Flutter and Isar. First large project where I had to heavily utilize my communication and software design skills.

Systems Developer   AUG 2024 - MAR 2025

CHIYUU Co., Ltd.

Interned at an overseas company which specializes in providing support and consultations for legacy systems. Worked mainly with CakePHP during my time here.

Treasurer   JAN 2023 - MAR 2025

Air Rovers Crew A

Active member of the Scouting Movement since 2017, most notably serving as the Treasurer for my high school's Rover Crew which I played a large role revitalizing.

R&D, Bootcamp, Community Member   DEC 2022 - AUG 2024

APUBCC

Active member, originally part of the R&D Team handling all things technical such as giving talks, hosting workshops and developing internal products.
